

WHAT WILL YOU DO?

Coming to London, this September:

- The world's worst human rights abusing regimes
- The Russian arms suppliers to Syrian President Assad
- The companies supplying teargas used in Turkey, Brazil and Bahrain.
- Israeli companies displaying "battle-tested" weapons

What will you do to stop them?

The government plans to support a massive arms fair this September. The deals that begin here fuel the arms trade the world over. Death, injury, fear and repression are exported from our doorstep.

Take action to stop it. Join a week of action from 7-14 September to expose the fair and make its work as difficult as possible.

If you only do one thing ... be there on Sunday 8 September
for a huge protest as arms dealers arrive to set up for the fair.
